

## **OUR COMMITTEMENT TO SAFETY DURING COVID-19**

During what is being called 'the new normal', it is of the utmost importance to us that we are taking the proper precautions for the safety and wellbeing of our customers, teammates, family members, and communities.

As guided by government and health officials, we have enhanced our safety measures in order to do our part in minimizing the risk of exposure to Covid-19 (coronavirus).

Some of the protocols you can expect to see from us:

- We have established and posted an occupancy limit for our premises and common areas, as well as set a limit for the number of customers allowed on site at one time.
- We have implemented measures to keep workers and others at least 2 meters apart; such as laying floor markers for where customers line-up and re-organizing work tasks.
- Where social distancing is not possible, we have installed plexiglass barriers and have provided masks and face shields to employees to use when needed.
- All equipment is being thoroughly disinfected between uses.
- All high-touch areas are being frequently disinfected.
- All employees are to follow provided rules and guidelines on how they should conduct themselves at work to minimize risk of exposure and/or transmission.
- Policies have been put in place to prohibit anyone experiencing Covid-19 symptoms from the workplace.
- We have communicated protocols, procedures and policies to workers through meetings, training, and signage.
- We are continuing to monitor the workplace to ensure protocols are being followed, and to ensure we are implementing new protocols for any new risks that may arise.

We remain prepared and ready to serve our customers while doing so safely and responsibly. If you have any questions or concerns please reach out through email at [sales@abtoolrentals.com](mailto:sales@abtoolrentals.com)
