

Tool RENTALS Ltd.

Bobcat Compact Excavator

Safety Precautions

Read and understand operators manual before use

1. Call before you dig to be aware of any underground utility lines.
2. Do not operate under the influence of drugs, alcohol or extreme fatigue.
3. Wear proper personal safety equipment – tight fitting clothing and safety glasses and hearing protection when required.
4. Never exceed the machines rated operator capacity.
5. Never use loader as a man lift or elevating device for personnel.
6. Wear seat belt.
7. Use the “3 point contact” method when entering and exiting the machine.
8. Do not travel or turn with the attachment extended.
9. Do not swing loads on slopes. Swing loads low and slowly.
10. Never operate without an approved canopy or cab.
11. Always lower bucket or attachment to the ground before leaving machine. Stop the engine and remove the key, raise the control console then get out.

12. If in an enclosed area, check that it is well ventilated to avoid concentration of exhaust fumes. Colorless and odorless gases can be extremely harmful.
13. Do not use attachments or buckets which are not approved by Bobcat Company.
14. Avoid steep areas or banks that can break away.
15. Keep boom centered and attachments as low as possible when traveling on slopes or in rough conditions.
