Dust Control Dustless Vac Safety

1. Don't use in damp or wet locations or in the presence of flammable liquids or gases
2. Never let the machine operate fully throttled
3. Always follow the regulations pertinent to the material you are working with (ie. Asbestos)
4. Never let the suction come in contact with parts of the body. The strong suction effect can hurt the blood-vessels in the skin
5. Use only accessories and replaceable parts
